

## Consent for Use of Personal Information for Program Evaluation

In order to assess the effectiveness of the Guided Application (GAP) session, the Outreach staff of Nova Scotia Student Assistance, Nova Scotia Labour and Advanced Education will be tracking completion rates of those who attended a GAP session.

The evaluation is restricted to how many GAP participants attend a post-secondary school and how many complete their diploma or degree program. Student loan amounts, grades, and other personal information will not be reviewed or assessed as part of this evaluation. The applicant will not be contacted for any follow-up surveys regarding GAP.

Please note, consent for tracking of completion rates is **not mandatory** for participation in the student loan program or the GAP session.
